

NON-HOUSEHOLD TRASH SERVICE

To better serve our citizens, the Town of Narrows Street Division provides a weekly non-household trash pickup service.

- Non-household trash is defined as large household furniture (i.e. dressers, mattresses, etc.) and white goods.

Service is limited to two truckloads per customer. It will be the discretion of the supervisor when the truck is full for safe transport of the items and be able to safely unload at the collection center. Anything over the 2-load maximum must be **pre-approved** by a **supervisor** with the Town, and there will be a fee charged for extra loads.

Any non-household trash remaining is the responsibility of the customer to dispose of **immediately**. Items cannot be 'stockpiled' on the property.

This service is provided on a call-in basis only. Customers needing this service should call the Narrows Town Office at 540-726-2423. Customers will need to supply their name and address and ask to be placed on the pick-up schedule. The service is performed each Friday (excluding holidays or inclement weather), and customers must call no later than 4 PM on Thursday to ensure service is received in the same week.

Anyone calling after this time will be placed on the following week's schedule.

This service is provided free to town residents for non-household items only. Please note that construction debris, contractor debris, and hazardous materials of any type (i.e. cleaning agents, paint cans, etc.) **will not** be picked up by Town employees.

TIRE DISPOSAL: Citizens needing tire disposal should contact the Giles County PSA (Public Service Authority) 540-921-2525 to make that arrangement.
